156207	13" 316 bubble deluxe knob
156307	13" 316 bubble brushed w/knob

In consideration of the ever-rising cost of stainless steel, GEM Products has engineered a lower cost alternative that maintains our high GEM standards. The bubble wheel will be available in 316 cast stainless steel, with or without direction knobs and in both 13 and 15-inch versions.

- Specify wheel nut for steering system type
- 316 cast stainless steel
- Fits a 3/4" tapered shaft
- Spokes made flatter and wider to make the wheel lighter without compromising quality or strength
