LOCKING

GEM#	MOUNTING BRACKET	SCREW	HOLE SAW SIZE
4150-410-16mm	thin	short	50mm or 2"
4150-410-20mm	thin	long	50mm or 2"
4150-415-16mm	thick	short	50mm or 2"
4150-415-20mm	thick	long	50mm or 2"

Smooth operation with two finger pull on locking and non-locking versions.

Locking mechanism designed to maintain a symmetric look.

Actual key instead of flimsy suitcase key. Can be customized with orders of 5,000+.

Latch keeper includes two adjustable screws and one set screw for ease of installation and proper fit, every time.

Improved locking mechanism won't rust or rattle shut with vibration.

Beauty meets brains with the Stellar Series. These slam latches save boat builders time, money and headaches while increasing the satisfaction of their retail consumers. Smooth operation is combined with dramatic functional improvements, durability and a beautiful, consistent look on all latches. Designed to be an improvement over other competitors' latches, with drop-in replacement specs. Contact GEM today for samples.
